**PROJECT ACCEPTANCE LETTER**

To whomsoever it may concern

We received your request for our firm to be one of your major sponsors for your Final Year Project. We certify that we are sponsoring Sarvesh Mankar, Gourav Suram and Umer Shaikh, students of Cusrow Wadia Institute of Technology for Company System Project.

We have found the proposed project to be very significantly useful, especially during this modern age of technology and digital advancement.

On behalf of RichTech IT., I am pleased to inform you that we have gone through and appreciate your proposed project of Company System which includes employee and client management, project management, Invoice and Report generator, recruitment platform, etc.

We would be offering sponsorship of 6,000 INR for the project and would co-operate them with all their queries and issues that are related to the Project. Payment and other aids will be progressive according to the project execution.

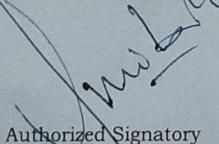

We feel that your proposal fits best with our requirements and is fulfilling our expectations. We believe that this proposal can do justice to what we want as we are always in hunt for new talents and outstanding ideas leading to new horizons in research and development. Hence we wish to accept your proposal.

Our offer reflects our belief that you have the ability and desire to grow in technical expertise with us. We assure you of our support for your professional development and growth.

Wish you a long and rewarding career with RichTech IT.

You're sincerely,

For RichTech IT

  
Nitin

# CERTIFICATE

This is to certify that the below mentioned third year diploma students have carried out the project work on “Company Systems Workflow Mapping” in the department of Computer Engineering, Cusrow Wadia Institute of Technology, Pune-1. They have completed this project work under my guidance and in satisfactory manner in July 2022 of third year diploma.

1. Sarvesh Anand Mankar 194009
2. Gourav Balaji Suram 194028
3. Umer MohmmadRafiq Shaikh 194032

Computer Engineering students have successfully completed project on “Company Systems Workflow Mapping” towards the fulfilment of their Diploma in Computer Engineering in academic year 2021-2022.

Date: 16/07/2022

## **1. Introduction**

In this world of growing technologies everything has been computerized. Most of the daily routine tasks needs to be automated to increase the proficiency in the work. With large number of demands and working opportunities the data size has been increased. This there is a need of a system which can handle the data efficiently. This project simplifies the task to maintain each and every working group of the organization. It stores the data efficiently and makes sure that it is used effectively.

The Company Management System has been developed to override the problems prevailing in the practicing manual system. This software is supported to eliminate and, in some cases, reduce the hardships faced by the organization. Moreover, this system is designed for the particular need of the organization to carry out operations in a smooth and efficient manner.

The application is reduced as much as possible to avoid errors while entering the data. It also provides error while entering invalid data. No formal knowledge is needed for the user to use this system. Thus, by this all it proves its user friendly.

The Company Management System will have certain roles that will perform the Top-Level Management tasks, certain roles for performing Mid-Level Management tasks and Employee role which enhance the integrity of the company. The tasks are assigned and completed in a agile manner.

## **2. Acknowledgement**

We take this opportunity in expressing the fact that this project report is the result of incredible amount of encouragement, co-operation and moral support that we have received from our beloved teachers, mentors and colleagues.

We are privileged to present the project report on “Company Management System – Organization Workflow Mapping” and to express our deep regards towards those who have offered their valuable time and guidance in our hour of need because when any work is to be completed successfully it should be supported and guided by knowledgeable mentors.

“No one achieves success does so without acknowledging the help of others. The wise and confident acknowledge this help with gratitude.”

~Alfred North Whitehead

We are highly indebted to “Dr. A. S. Chandak (H.O.D Computer Dept.)” and our project guide Prof. R. P. Shete for her guidance and constant supervision as well as providing necessary information regarding project and also for their support in completing project.

We would like to express our gratitude towards our sponsors and members of computer engineering department for their kind co-operation and encouragement which helped us in successful completion of this project.

### **3. Abstract**

There are numerous of activities which needs to be performed for the smooth flow of the company. Handling these tasks manually would take lot of time and will affect the outcome adversely. “Time is Money”, which brings our Company System into picture. This project helps to reduce the manual tasks, and computerizes the various assets that will boost the company’s progress.

“Company Management is like juggling three balls: time, cost and quality. Company management is like a troupe of circus performers standing in a circle, each juggling three balls and swapping balls from time to time.”

~ G. Reiss

The Project will allow admin to add new employees, managing their work, adding new client projects, assigning work to employees, marking employee attendance, managing Project files & reports, salary management, invoice and receipt generation, etc. which makes the whole organization managed effectively by using a single application.

Every organization, whether big or small, have multiple assets which need to be managed properly in order to achieve maximum profits, therefore we designed exclusive Company Management System that adapt to all the managerial and daily routine requirements. This is designed to assist in strategic planning and will help you ensure that your organization is able to achieve its goals. This system ultimately allows you to better manage resources.

## **4. Keywords**

Employee Management System, Training Programs, Hiring System, Evaluation Platform, Employee Assessment System, Project Management System, Client Management System, Finance Structure, Invoice generation, Report generation, Attendance System, Salary System, Responsive Pages, Database Management.

## **5. Presently Available System**

A Company not only needs automation but also to maintain the workflow and make reliable updates to maintain the stage as planned. Having a distinctive software helps to boost the enterprise tasks resulting into the growth of the firm. The identification of the needs and implementation of the current and future demands are essential for any organization.

The current system includes bunch of manual tasks which eventually slows down the time period of the firm. Having an automation system will help to do the frequent tasks with much swifter and robustness.

Some of the renowned Company System software are Zoho One, Scoro, StudioCloud, Odoo, BaseCamp, NetSuit, Clarizen, etc. and their common features are:

1. User-Friendly Interface.
2. Mobile Accessibility.
3. Structured Task Planning.
4. Task Scheduling.
5. Task Tracking.
6. Task Communication.
7. Integrated Time Tracking.
8. Collaborative Features.

## **6. Need of Such System**

A good change is the one that happens gradually - the business and employees also need some time to adjust to the newly implemented system. The manual system will reduce the efficiency in the communication which can create complication in the updates of the projects. As a result, a responsible firm needs management system to track the activities and improvise them to maximize the profits and to stand against stiff competition in the market.

### **Benefits of Company System**

1. **Enhanced management** - well-organised and systematised business processes.
2. **Increased employee engagement** - each member of staff is actively involved in the decision-making processes thanks to an excellent information flow.
3. **Collaboration** - cross-functional teams working along to achieve specific company goals.
4. **Simplicity** - things are operating smoothly, easily and efficiently; the system is user-friendly, which makes navigating between different screens seamless and effortless for anyone with access rights.
5. **Costs** - an all-in-one business management solution will save you money that you would otherwise have to pay for each individual piece of software providing various services.
6. **Accessibility** - allows you to access the parts of the system that you need regardless of time or place and, at the same time, prevents those with no access rights from entering; it simply matches access to responsibilities and ensures that the information stays secure.
7. **Avoiding errors** - with business management software, you only introduce the information once and the system will take care of the rest; this automation leaves no room for any error whatsoever.

## **7. Detailed Problem Statement**

Whether a large or small organization, it has to manage multiple tasks at the same time. Manually doing all those tasks lacks in efficiency and also takes a lot of time. Managing all the paper work is also a challenging task, so now a days there is a demand of having all the task managed from a single compact workspace that will make an organization easy to coordinate between different departments.

To create a better environment and workspace for each client as well as the employee is vitally important to run the routine cycle of the firm. Company system offers all the required feature required by a firm to perform the ongoing tasks and create a convalescent domain. Main aim of the Company System is to keep healthy workplace.

## **8. Hardware and Software Requirements**

### **Hardware Requirements**

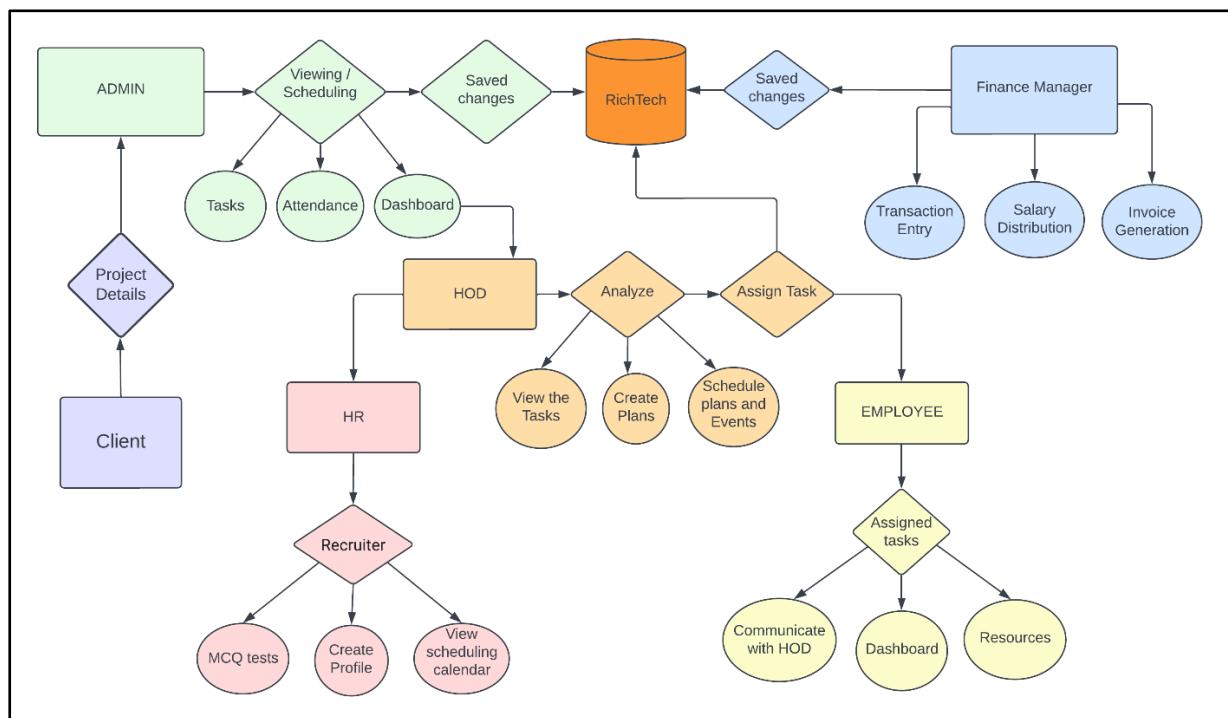

- Processor : Intel i5 5<sup>th</sup> Generation
- Cores : 4
- Processor Speed : 3.0 GHz
- RAM : 4 Gigabytes
- SSD : 1024 Megabytes
- Speed : 1.10 GHz
- Clock Speed : 2.4 GHz
- Graphics : Intel Iris XE

### **Software Requirements**

- Operating System : Windows 11 / Linux
- Application : Xampp, Apache Server
- Tools and utilities : PHP Server, Git Bash
- IDE : VSCode, NVIM, Vi, Sublime
- Front End : HTML, CSS, JS
- Framework : Bootstrap
- JavaScript Libraries : jQuery UI, jQuery Migrate, Data-Tables.

**Fig 3: MCQ Dashboard**

**Fig 4: MCQ Dashboard – Candidate**

The screenshot shows a web application interface for an MCQ examination. The header includes the logo 'Rich Tech' and a search bar. The main content area is titled 'MCQ Examination' and displays the message 'Enter Your Details!'. Below this, there are four input fields: 'Email Id', 'Full Name', 'Enrollment Number', and 'Mobile Number'. A green 'Next' button is positioned at the bottom right of the input area.

**Fig 5: MCQ – Fill up form**

The screenshot shows the same web application interface for an MCQ examination. The header includes the logo 'Rich Tech' and a search bar. The main content area is titled 'MCQ Examination' and displays the message 'Instructions:-'. Below this, there is a list of three instructions: '1. Keep a Stable Internet Connection.', '2. Submit the Test in given Time.', and '3. If any issues, please contact to Admin.'. A green 'Proceed' button is located at the bottom right of the instructions area.

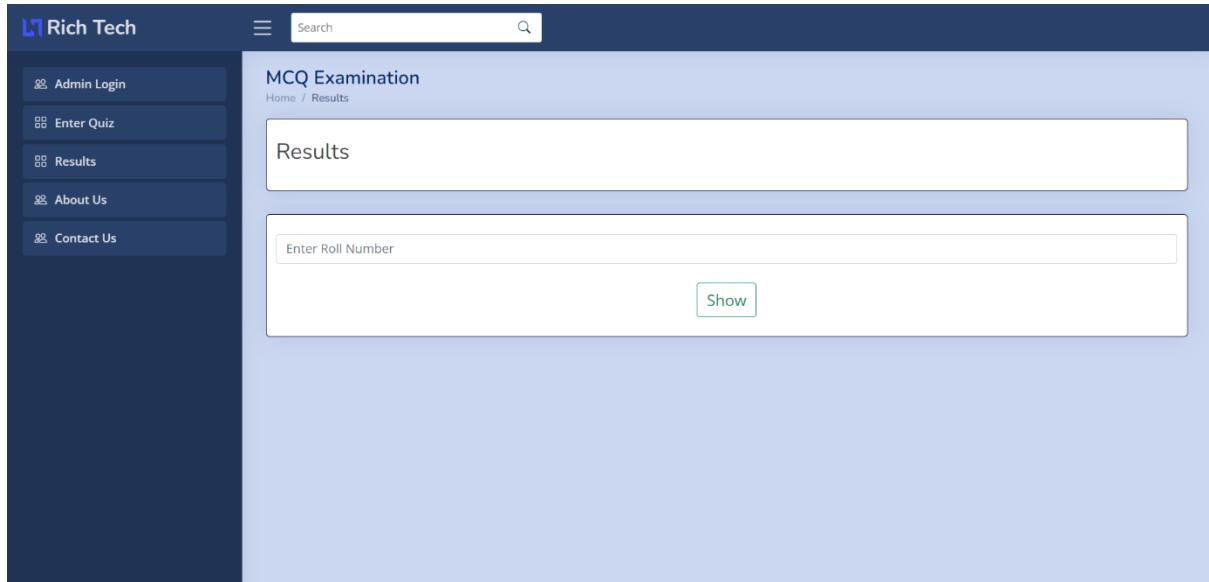

**Fig 6: MCQ – Instructions**

The screenshot shows a web application interface for a quiz system. The header bar includes a logo for 'Rich Tech' and a search bar. Below the header, the title 'MCQ Examination' is displayed, along with a breadcrumb navigation path: 'Home / Home Page'. A large section titled 'Unit-3' contains a question: 'Which of the following are valid function names?'. It lists four options: i) function(), ii) .function(), iii) €(), and iv) \$function(). Below the question, there is a list of radio buttons for selecting the correct answer: 'Only iv)', 'Only ii) and i)', 'Only iii)', and 'None of Above'. Another question follows: 'Which functions is used to find position of first occurrence of a particular character in a string?'. It lists two options: 'strposition()' and 'pos()'. The sidebar on the left contains links for 'Admin Login', 'Enter Quiz', 'Results', 'About Us', and 'Contact Us'.

**Fig 7: MCQ Exam Page**

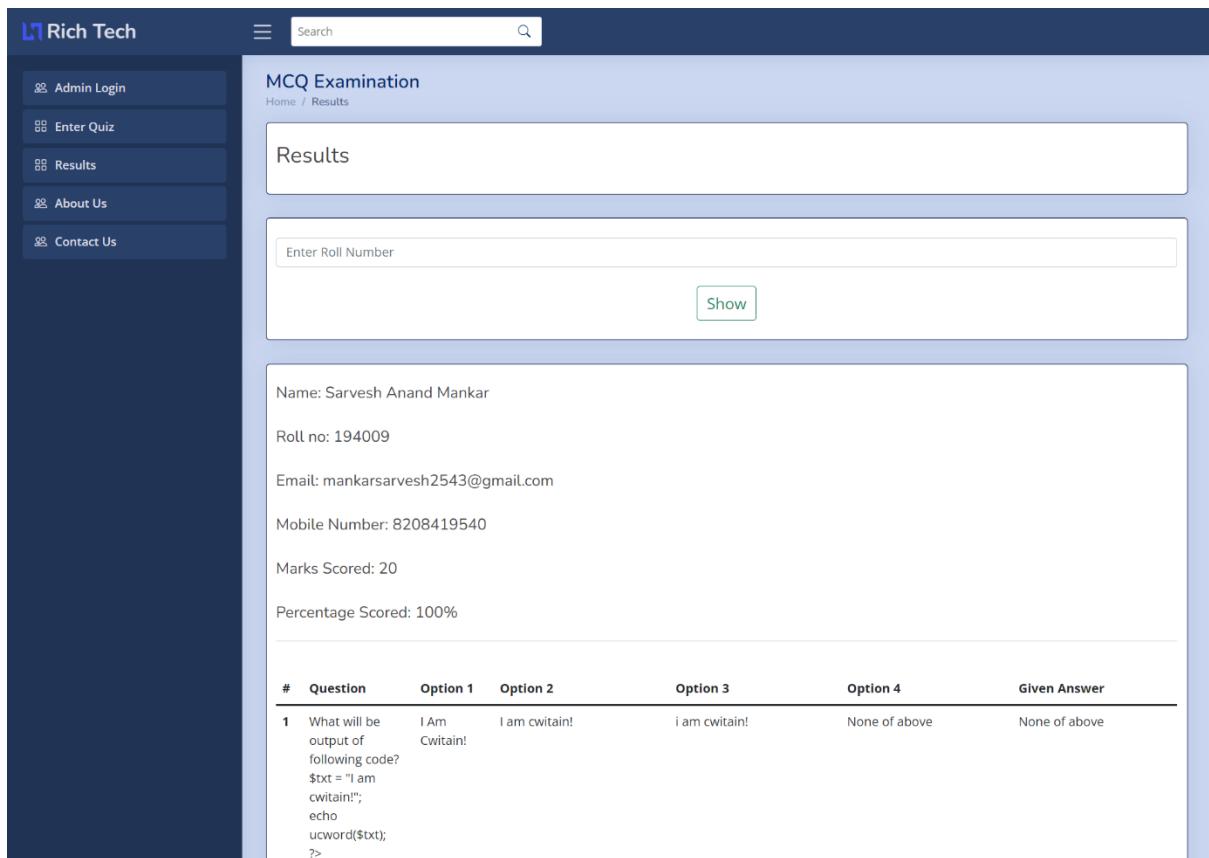

The screenshot shows a confirmation message after a quiz submission. The header bar includes a logo for 'Rich Tech' and a search bar. Below the header, the title 'MCQ Examination' is displayed, along with a breadcrumb navigation path: 'Home / Home Page'. A central message box displays the text 'Your Response has been recorded!' and 'Thank You CWIT-Student'. The sidebar on the left contains links for 'Admin Login', 'Enter Quiz', 'Results', 'About Us', and 'Contact Us'.

**Fig 8: MCQ Submission**

The screenshot shows a web application interface for an MCQ examination. The header includes the logo 'Rich Tech' and a search bar. The main title 'MCQ Examination' is displayed above a breadcrumb navigation path 'Home / Results'. A large button labeled 'Results' is visible. Below it is a form field labeled 'Enter Roll Number' with a 'Show' button. On the left side, there is a vertical sidebar with links: Admin Login, Enter Quiz, Results, About Us, and Contact Us.

**Fig 9: MCQ- Check Result Form**

This screenshot shows the results page for the MCQ examination. It displays personal information: Name: Sarvesh Anand Mankar, Roll no: 194009, Email: mankarsarvesh2543@gmail.com, Mobile Number: 8208419540, Marks Scored: 20, and Percentage Scored: 100%. Below this, a table provides detailed results for each question. The table has columns for Question number, Question text, Option 1, Option 2, Option 3, Option 4, and Given Answer. The first question is listed:

#	Question	Option 1	Option 2	Option 3	Option 4	Given Answer
1	What will be output of following code? \$txt = "I am cwitain!"; echo ucword(\$txt); ?>	I Am Cwitain!	I am cwitain!	i am cwitain!	None of above	None of above

**Fig 10: MCQ Result Page**

The screenshot shows the Rich Tech company system's dashboard. On the left is a sidebar with various menu items: Dashboard, Finance, Transaction Entry, Salary, Attendance, MCQ Test, Client, Projects, and Employees. The main content area has a search bar at the top. Below it, a navigation bar includes 'Complete Result', 'Student Result', 'Question Stats', 'Graphical View', 'Not Submitted', and 'Malicious Activity'. A large section titled 'Results of Unit-3' displays a table of student results:

#	Name	Roll	Email	Marks	Percentage	Submitted At
1	Sarvesh Anand Mankar	194009	mankarsarvesh2543@gmail.com	20	100%	25/12/21 05:23:07am

**Fig 13: Malicious Activity tracker**

The screenshot shows the 'Rich Tech' application interface. The left sidebar contains navigation links: Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main content area is titled 'Attendance' and shows the path 'Home / Attendance'. It features two forms: 'Attendance Form' and 'Search by Employee Details'. The 'Attendance Form' includes fields for Employee id, Date (dd/mm/yyyy), Time (hh:mm), and buttons for 'Enter' and 'Release'. The 'Search by Employee Details' form includes fields for Employee id and Date (dd/mm/yyyy), and a 'Search' button. Below these is a section titled 'Current Logs' with a table of attendance records:

#	Empid	User Name	Work Profile	Date	In-time	Out-time	Status
1	1	cwit	Engineering	2022-06-10	11:23:00	22:26:00	Late/Half Day
2	1	cwit	Engineering	2022-07-01	11:50:00	19:52:00	Late/Half Day
3	2	DCP	Class	2022-07-01	10:22:00	18:24:00	Late/Half Day
4	1	cwit	Engineering	2022-06-01	11:39:00	18:53:00	Late/Half Day
5	1	cwit	Engineering	2022-06-13	08:27:00	18:27:00	Full Day

Text at the bottom of the logs table: Showing 1 to 5 of 5 entries.

**Fig 14: Attendance Form**

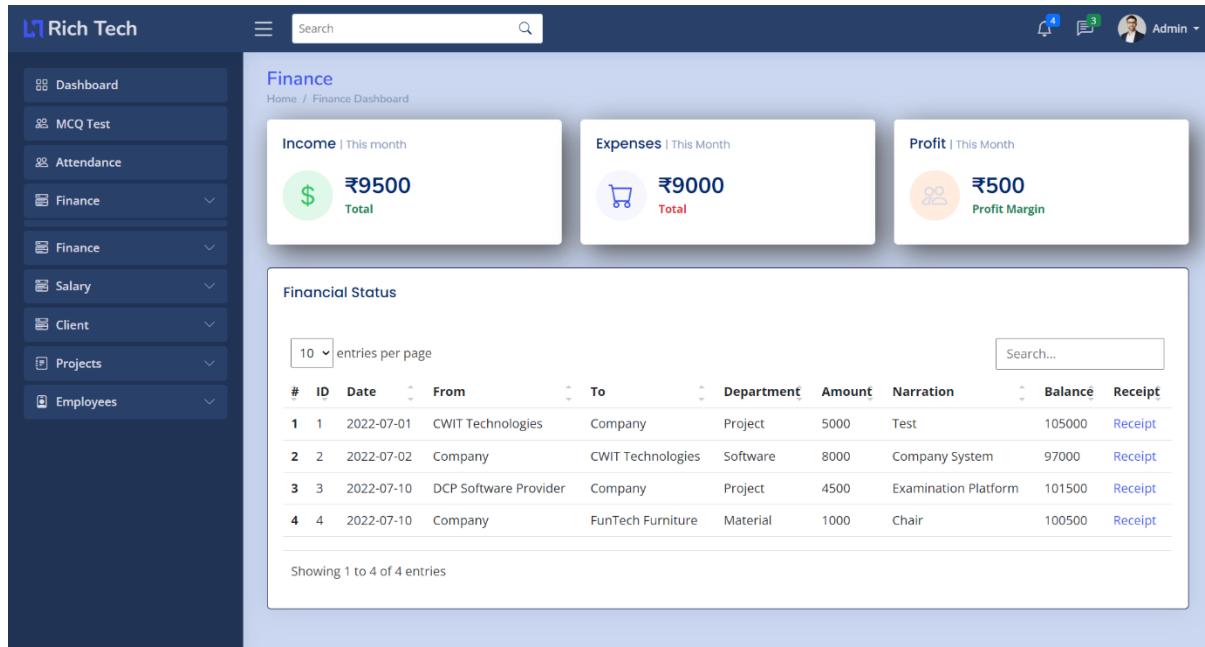

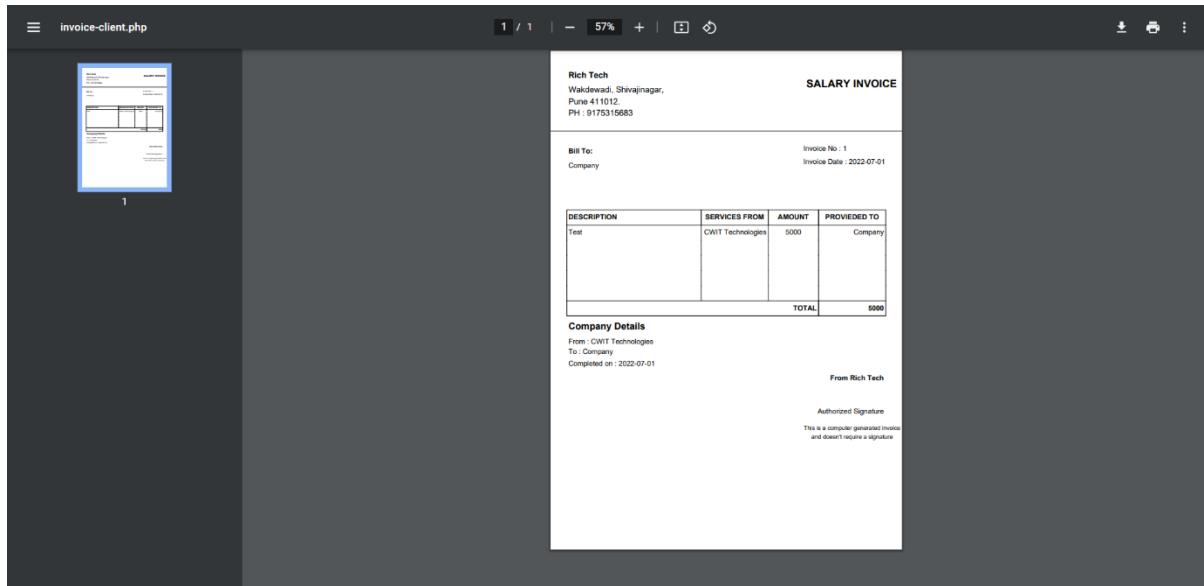

Fig 15: Finance Dashboard

The screenshot shows the 'Transaction Entry' form with the following fields:

- Payment Date: dd/mm/yyyy
- From: From (Debitor)
- To: To (Creditor)
- Amount: Enter Amount
- Department: HR
- Payment Details: Enter Payment Details

**Submit** button at the bottom

Fig 16: Finance Transaction Form

**Fig 17: Finance Invoice**

The screenshot shows a salary dashboard for 'Rich Tech'. The left sidebar has navigation links: Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main area has a search bar and a header with notifications (4 messages, 3 emails, and an admin icon). It displays three summary boxes: 'Salary | This month' (₹22468 Total), 'Salary | Working Days' (₹14979 To be paid), and 'Salary | Deducted' (₹7489 Half day loss). Below these is a 'Finance Structure' table with columns: #, Emp ID, Month, Days worked, Salary Credit, Salary Deducted, Payment Status, and Receipt. The table shows 3 entries: Employee 1 (Emp ID 2, July, 1 day, ₹2777 credit, ₹1388 deduction, Paid on 2022-07-07, Receipt), Employee 2 (Emp ID 1, July, 1 day, ₹5952 credit, ₹2976 deduction, Paid on 2022-07-07, Receipt), and Employee 3 (Emp ID 1, June, 1 day, ₹6250 credit, ₹3125 deduction, Pending, Receipt). A note at the bottom says 'Showing 1 to 3 of 3 entries'.

**Fig 18: Salary Dashboard**

The screenshot shows the 'Salary Payments and Invoices' section of the Rich Tech system. On the left, a sidebar menu includes 'Dashboard', 'MCQ Test', 'Attendance', 'Finance', 'Salary', 'Client', 'Projects', and 'Employees'. The main area displays three sections: 'Employee Payment - This month', 'Employee Payment - Pending', and 'Current Logs'. The 'Employee Payment - This month' section shows a table with one entry: Emp ID 1, Name CWIT, Salary 5952, Bonus 0, Total Salary 5952, and Status Paid on 2022-07-07. The 'Employee Payment - Pending' section has a dropdown for Month (07 - July) and a 'Pay All' button. The 'Current Logs' section shows two entries in a table:

#	Empid	User Name	Work Profile	Department	Salary Paid	Bonus	Paid Date	Month	Receipt
1	2	DCP	Class	Software	2777	0	2022-07-07	July	Receipt
2	1	cwit	Engineering	Software	5952	0	2022-07-07	July	Receipt

Showing 1 to 2 of 2 entries.

**Fig 19: Salary Statistics**

The screenshot shows a detailed view of a salary invoice titled 'SALARY INVOICE'. The header includes the company details: Rich Tech, Wakdewadi, Shivajinagar, Pune 411012, PH : 9175315683. The invoice number is 13, and the date is 2022-07-07. The 'Bill To' section lists DCP, Bund Garden, Pune. The 'DESCRIPTION' table shows a single entry: Salary for the month of July 2022, with a total of 2777. The 'Payment Details' section indicates payment through Bank Of India, Account Number 91912222, and the date 2022-07-07. The invoice is from Rich Tech and is a computer-generated document.

**Fig 20: Salary Invoice**

The screenshot shows the 'Clients' section of the Rich Tech application. The left sidebar includes options like Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main area has a search bar and notifications for 4 messages and 3 tasks. It displays three tables:

- Client Project Working On!** (Table):
 

Project ID	Client Name	Project Name	Due Date	Status
6	Test2	Test2	2022-04-05	Working
11	Test3	Test3	No Due Date	Working
12	Test4	Test4	No Due Date	Working
- Client Project Pending!** (Table):
 

Project ID	Client Name	Project Name	Due Date	Status
8	a1	a1	No Due Date	Pending
- Client Project Completed!** (Table):
 

Project ID	Client Name	Project Name	Submission Date	Status	Charges
1	CWIT Technologies	Portfolio	2022-02-19	Completed	5000
2	DCP Software Provider	MCQ Platform	2022-02-19	Completed	4500
4	Abc	abc	2022-03-27	Completed	6000
5	test1	test1-Proj	2022-07-11	Completed	7000
7	test	test	2022-05-18	Completed	1000

Fig 21: Client Dashboard

The screenshot shows the 'Add Client' form. The left sidebar includes options like Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main area has a search bar and notifications for 4 messages and 3 tasks. The form contains the following fields:

- Add Client Details
- Company Name
- Project Name
- Mobile Number
- Email ID
- Assign Date in yyyy-m-d
- Due Date in yyyy-m-d
- Description

At the bottom are 'Submit' and 'Reset' buttons.

Fig 22: Add Client Section

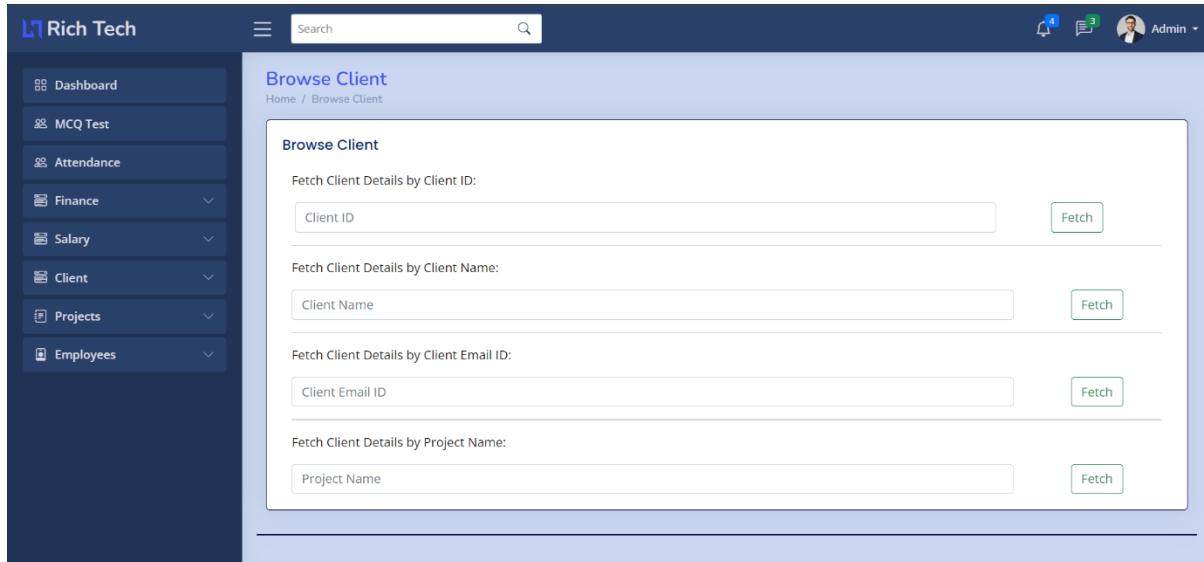

Fig 23: Browse Client

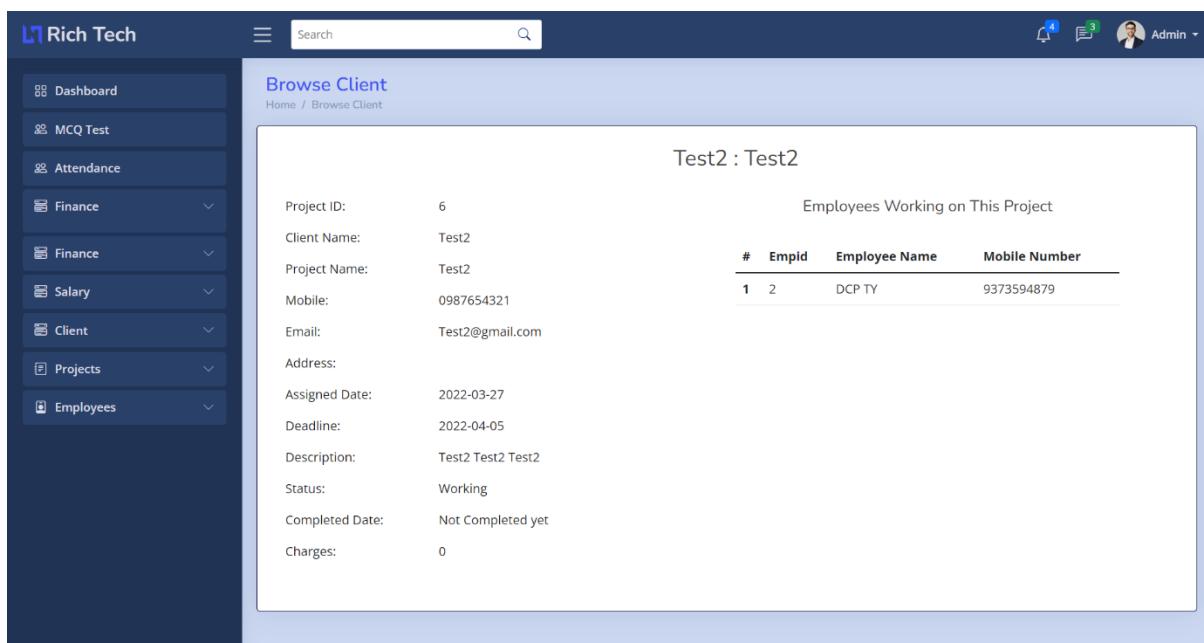

Fig 24: Browse Client by ID, Name, Email ID.

The screenshot shows the Rich Tech software interface. The left sidebar contains navigation links: Dashboard, MCQ Test, Attendance, Finance (with dropdown), Salary (with dropdown), Client (with dropdown), Projects (with dropdown), and Employees (with dropdown). The main content area has a header "Payment" and a breadcrumb "Home / Payment from Client". Below this is a section titled "Client Payment" with fields for "Client ID" (text input with placeholder "Enter Client ID"), "Amount" (text input with placeholder "Enter Amount"), "Payment Date" (date input with placeholder "dd/mm/yyyy"), and "Payment Details" (text input with placeholder "Enter Payment Details"). To the right is a table showing payment history:

#	ID	Client Name	Project Name	Completed Date	Charges
1	4	Abc	abc	2022-03-27	6000
2	5	test1	test1-Proj	2022-07-11	7000
3	7	test	test	2022-05-18	1000

A blue "Submit" button is located at the bottom of the form.

**Fig 25: Client Payment**

The screenshot shows the Rich Tech software interface. The left sidebar contains navigation links: Dashboard, MCQ Test, Attendance, Finance (with dropdown), Salary (with dropdown), Client (with dropdown), Projects (with dropdown), and Employees (with dropdown). The main content area has a header "Assign Project Work" and a breadcrumb "Home / Assign Work". Below this is a section titled "Assign Project Work" with a "Project ID" input field and a "Next" button. To the right is a table showing project assignments:

Project ID	Client Name	Project Name	Due Date	Status
6	Test2	Test2	2022-04-05	Working
8	a1	a1	No Due Date	Pending
11	Test3	Test3	No Due Date	Working
12	Test4	Test4	No Due Date	Working

**Fig 26: Assign Client Project to Employee**

The screenshot shows the 'Assign Project Work' interface. On the left is a sidebar with navigation links: Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main area has a search bar and a 'Next' button. A table lists projects with columns: Project ID, Client Name, Project Name, Due Date, and Status. The data is as follows:

Project ID	Client Name	Project Name	Due Date	Status
6	Test2	Test2	2022-04-05	Working
8	a1	a1	No Due Date	Pending
11	Test3	Test3	No Due Date	Working
12	Test4	Test4	No Due Date	Working

Below the table, a section titled 'Test2 : Test2' displays project details: Client ID (6), Client Name (Test2), Project Name (Test2), Mobile (0987654321), Email (Test2@gmail.com), Address, Assigned Date (2022-03-27), Deadline (2022-04-05), Description (Test2 Test2 Test2), and Status (Working). To the right is a 'Employees Status' table:

#	Empid	Employee Name	Status
1	1	CWIT computer	Free
2	2	DCP TY	Working
3	194032	Umer Shaikh	Working
4	194009	Sarvesh Mankar	Working
5	194028	Gourav Suram	Working

Buttons for 'Assign', 'Add Employee', and 'Delete Last Employee' are present. An upward arrow icon is at the bottom right.

Fig 27: Project Status

The screenshot shows the 'Submit Project' interface. The sidebar and main layout are identical to Fig 27. The 'Assign Project Work' section is replaced by a 'Submit Project Work' section with a 'Next' button. A table titled 'Projects we are Working on!' lists projects with columns: Project ID, Client Name, Project Name, Due Date, and Status. The data is as follows:

Project ID	Client Name	Project Name	Due Date	Status
6	Test2	Test2	2022-04-05	Working
11	Test3	Test3	No Due Date	Working
12	Test4	Test4	No Due Date	Working

Fig 28: Update Project Status

The screenshot shows the 'Submit Project' page. On the left is a sidebar with 'Rich Tech' logo and navigation links: Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main area has a header 'Submit Project' with a 'Search' bar and a user icon for 'Admin'. Below is a form titled 'Submit Project Work' with a 'Project ID' field and a 'Next' button. To the right is a table titled 'Projects we are Working on!' with columns: Project ID, Client Name, Project Name, Due Date, and Status. It lists three projects: Test2, Test3, and Test4, all in 'Working' status. Below this is a section titled 'Test2 : Test2' with project details: Client ID (6), Client Name (Test2), Project Name (Test2), Mobile (0987654321), Email (Test2@gmail.com), Address (empty), Assigned Date (2022-03-27), Deadline (2022-04-05), Description (Test2 Test2 Test2), and Status (Working). To the right is a table titled 'Employees Working on This Project' with columns: #, Empid, Employee Name, and Mobile Number. It shows one entry: 1, DCP TY, 9373594879. At the bottom are fields for 'Completed date' (yyyy-mm-dd format) and 'Charges in Number', and a 'Submit' button.

Fig 29: Check Employee Project Section

The screenshot shows the 'Add Employee' form. The sidebar is identical to Fig 29. The main area has a header 'Employee' with a 'Search' bar and a user icon for 'Admin'. Below is a form titled 'Add Employee Details' with fields: Employee ID (text input), Employee Role (text input), Join Date (date input), Department (dropdown HR), Username (text input), Password (text input), Re-type Password (text input), Base Salary (INR) (text input), Bank Name (text input), and Bank Account number (text input). A 'Submit' button is at the bottom right, and a blue upload icon is in the bottom right corner of the form area.

Fig 30: Add Employee Form

The screenshot shows the Rich Tech application's interface. The left sidebar contains navigation links: Dashboard, MCQ Test, Attendance, Finance, Salary, Client, Projects, and Employees. The main content area is titled "Employees" and shows a table of employee details. The table has columns: #, Empid, Employee Name, Email, Mobile Number, Birth Date, Address, Bio, and Status. The data in the table is as follows:

#	Empid	Employee Name	Email	Mobile Number	Birth Date	Address	Bio	Status

## **11. Salient Features**

### **1. Effective Management:**

A high-quality software which manages each aspect of the company in a single workspace. It helps the High-Level Management to assign and keep track of the activities which are performed by the employees. Additionally, the application provides the feature to manage all kinds of reports like Invoice, Receipts, Project Details, etc. into a single workspace. This makes them easy to manage and store.

### **2. Work evaluation:**

The application provides the feature to assign the project task to multiple employees and keep track of their work. Their work can be evaluated and train the employees in order to improvise the project quality.

### **3. Leadership:**

One of the keys to a successful working and development Organization, and possibly the most important, is leadership buy-in from the top down.

Having leadership support helps to drive the importance of a program, assist with accountability and establish appropriate expectations. Leaders are provided with a better view towards the whole working order and helps to provide a better communication medium between different departments.

### **4. Accessibility:**

Allows you to access the parts of the system that you need regardless of time or place and, at the same time, prevents those with no access rights from entering; it simply matches access to responsibilities and ensures that the information stays secure.

## **5. Avoiding errors:**

With business management software, you only introduce the information once and the system will take care of the rest; this automation leaves no room for any error whatsoever.

## **6. Collaboration:**

Whether on-premise or remote, this application brings the team together with active collaboration features. We can also connect with different departments quickly. The Project reports are stored effectively which provides a vital learning resource for freshers.

## **7. Security:**

The Company System works in a secured environment. The security is maintained by encrypting the password, specifying roles in hierarchical manner. The user input is sanitized which would not lead to any issues. The queries are programmed using prepared statement to pass exact data needed to avoid any kind of vulnerability in the software.

## **12. Future Prospect**

Organizations have used management systems for a long time to help them create value and reach their objectives by actively managing risks and continually improving their performance. Such systems help companies manage a range of issues to do with quality, occupational health and safety, and the environment, as well as social and ethical concerns. But for management systems to continue to be a driving force for change, they must adapt.

In the Digital Transformation use of big data will become a key basis of competition and growth for individual firms. Organizations will leverage data-driven strategies to innovate, compete and capture value from deep, real-time information. However, there is also the issue of rising security and privacy threats. As analytics and social media reach every aspect of an organization, safeguarding data will continue to be a major concern for individuals and organizations.

The key feature of Company System is to manage and process the data in an effective manner which results the outcome to be the best.

The Software is built with the use of Open-Source languages and utilities such as PHP, JS, jQuery, which have the potential to adapt themselves with the changing technologies. Flexibility, Scalability, Robustness are some of the key features of Company Management System.
